Teaching experience

Teaching Assistant, Graduate School of Economics (Kobe University)

3Q 2024

3E600: Advanced Macroeconomics I.

Teaching Assistant, Department of Economics (Kobe University)

3Q and 4Q 2024

3E368: Programming & Economic Analysis.

Teaching Assistant, Department of Economics (Kobe University)

3Q and 4Q 2024

3E329: Economic statistics.

Teaching Assistant, Department of Economics (Kobe University)

1Q and 2Q 2024

1E332: Econometrics.

Teaching Assistant, Graduate School of Economics (Kobe University)

2Q 2023

2E655: Energy Economics.

Other Activities

KOBE HPC Summer School

Cosponsored: Kobe University, University of Hyogo, and RIKEN Center for Computational Science, R-CCS.

Periods: September 18-22, 2023.

Activities Description: I acquired knowledge of basic parallel computing methods in OpenMP, MPI, and OpenACC for various parallel computations, such as thread parallel, process parallel, and accelerator offloading, which is necessary for developing parallel applications to utilize simulations on massively parallel supercomputers like 'Fugaku'.

19th Macroeconomist Training Program

Sponsored: IMF Regional Office for Asia and the Pacific in cooperation with JICA.

Periods: January 10-12, 2024.

Activities Description: Through lectures by former IMF economists and group work on simulated IMF economic reviews, I learned how the IMF uses financial programming and other economic analysis tools to analyze macroeconomic issues and make policy recommendations, country economic reviews, and loan programs.

Skills

Programming

Proficient in: Matlab, Python, R, and Julia.

Familiar with: C, and Fortran.

Languages

Japanese (Native), English (Advanced), French (beginner).
