TEACHING EXPERIENCE

Fall 2024

FELLOWSHIPS, HONORS, AND AWARDS

SEMINARS, PRESENTATIONS (* SCHEDULED)

1

PROFESSIONAL MEMBERSHIPS

Japanese Economic Association
Japan Society of International Economics
Japan Society of Monetary Economics

SKILLS

Programming

Proficient in: Matlab, Python, R, and Julia
Familiar with: C, and Fortran

Languages

Japanese, English, French.

OTHER ACTIVITIES

19th Macroeconomist Training Program

Sponsored: IMF Regional Office for Asia and the Pacific in cooperation with JICA January 10-12, 2024

Activities: Through lectures by former IMF economists and group work on simulated IMF economic reviews, I learned how the IMF uses financial programming and other economic analysis tools to analyze macroeconomic issues and make policy recommendations, country economic reviews, and loan programs.

KOBE HPC Summer School

Cosponsored: Kobe University, University of Hyogo, and RIKEN Center for Computational Science, R-CCS September 18-22, 2023

Activities: I acquired knowledge of basic parallel computing methods in OpenMP, MPI, and OpenACC for various parallel computations, such as thread parallel, process parallel, and accelerator offloading, which is necessary for developing parallel applications to utilize simulations on massively parallel supercomputers like 'Fugaku.'

SERVICE

Chair of the Executive Committee, The Student Council of the Graduate School of Economics, Kobe U

Apr. 2024-Mar. 2025
